(Copied to General Coots, and Lt. Colonel Melvin)

John, Please feel free to distribute these links, and the letter by Joan Hall.

The most important comments begin at minute marker 4:00

I believe the behavior and physical manifestations are due to an "associational learning process". The improvement comes through break of the (emotional) association (per the Complicated Grief document attached).

Thank you for the meeting schedule, I would like to attend in the near future.

Paul

John,

Please inform me as to the meeting schedule for 2014, where I might appear to make comments. I will need to plan, for best travel arrangements.

Additionally, please add this letter to any file you may have associated with my efforts.

Thank you.

Best Regards,

Paul
