

# **Update from Army National Guard on medical initiatives to build overall Personnel Readiness**

COL Jill K. Faris  
Deputy Surgeon Army National Guard

Mr Raymond Holdeman  
Deputy Division Chief Personnel

# AGENDA

- Medical Management Processing System (MMPS)
- Duties and Responsibilities
- Understanding the MMPS process
- MMPS Order Options
- Reserve Component Managed Care (RCMC)
- iDES Dashboard
- Reserve Component Electronic iDES MEB

# MEDICAL MANAGEMENT PROCESSING SYSTEM (MMPS)

- The **Medical Management Processing System** (MMPS) is a decision making process which provides direction for case management of Soldiers with unresolved medical issues or conditions to assist in achieving medical recovery and increase unit readiness.
- Monitors, manages, and facilitates medical care for medically non-available Soldiers.
- Comprehensive medical case management tool
  - From identification of condition to **final** disposition .
- System of case management support
  - Medical Readiness NCOs (MRNCO), Care Coordinators (CC), and Case Managers (CM).

# MRNCOES DUTIES AND RESPONSIBILITIES

- **Battalion Medical Readiness Non-Commissioned Officer** (BN MRNCO) report to Battalion Commander
- Provide a monthly list to command of all Soldiers in the BN that are tracked through the MMPS system.
- Assist the Soldier with tasks to include, but not limited to, obtaining; an LOD, a temporary profile, establishing initial provider appointment and collecting any pertinent medical records (for the HSS).
- Should the Soldier require more in-depth/continual health care beyond 90 days (from identification of the issue), the BN MRNCO will do a battle hand off to the Case Manager (CM).

# CASE MANAGEMENT DUTIES AND RESPONSIBILITIES

- **Case Managers (CM)** report to the Deputy State Surgeon (DSS) and are tasked with evaluating and assigning cases to Care Coordinators(CCs)
- Clinical professionals (PAs, RN, social workers etc)
- Arrange case meetings, work in an advisory capacity with the care coordinator, reviewing and re-establish the comprehensive plan of care, to progress toward a final outcome.

# CARE COORDINATORS DUTIES AND RESPONSIBILITIES

- **Care Coordinators\* (CC)** report to the DSS and are the civilian equivalent of a BN MRNCO
- Possess basic health care training.
- Assist Soldiers with tracking medical and dental appointments, assuring attendance, maintaining communication as required with the Soldiers, and continue to update/collect current medical records (through collaboration w the HSS).

*\*previously called Administrative Assistants*

# HSS DUTIES AND RESPONSIBILITIES

- **Health Systems Specialists (HSSs)** report to the State G1 (most states) and provide technical expertise and guidance for personnel health related programs.
- Assist the Soldier with obtaining a DA Form 2173 (LOD) and communicates directly with the MRNCO, CCs (and CM) to assure that medical documents are loaded and indexed into the Health Readiness Record.
- **Military Health Care Providers** are Medical Doctors (MDs), Physician Assistants (PAs), or Nurse Practitioners (NPs) who report to the State Surgeon, issue profiles and serve as the military medical point of contact (POC) for the CM and the CC.

# Medical Management Processing System Workflow

## MRNCO

- assists SM w records profiles, and appointments

**Case Manager(CM)**

- reviews case
- assigns to Care Coordinator (CC)

## CC continues

- assist SM
- coordinate w CM/MRNCO as needed

## CC continues

- assist SM
- coordinate w CM/MRNCO as needed

0 MO

**SM identified w issue** by self report, PHA, PDHA, or PDHRA

NLT 3 MO

**Case meeting #1**  
Commander,SS,G1 and CM

**Assure:** 1) temp profile updated  
**2) eval for AD orders for medical care**

NLT 6 MO

**Case meeting #2**  
Commander,SS,G1 and CM

**Assure:** 1) temp profile updated  
**2) eval for AD orders for medical care**

NLT 9 MO

**Case meeting #3**  
Commander,SS,G1 and CM

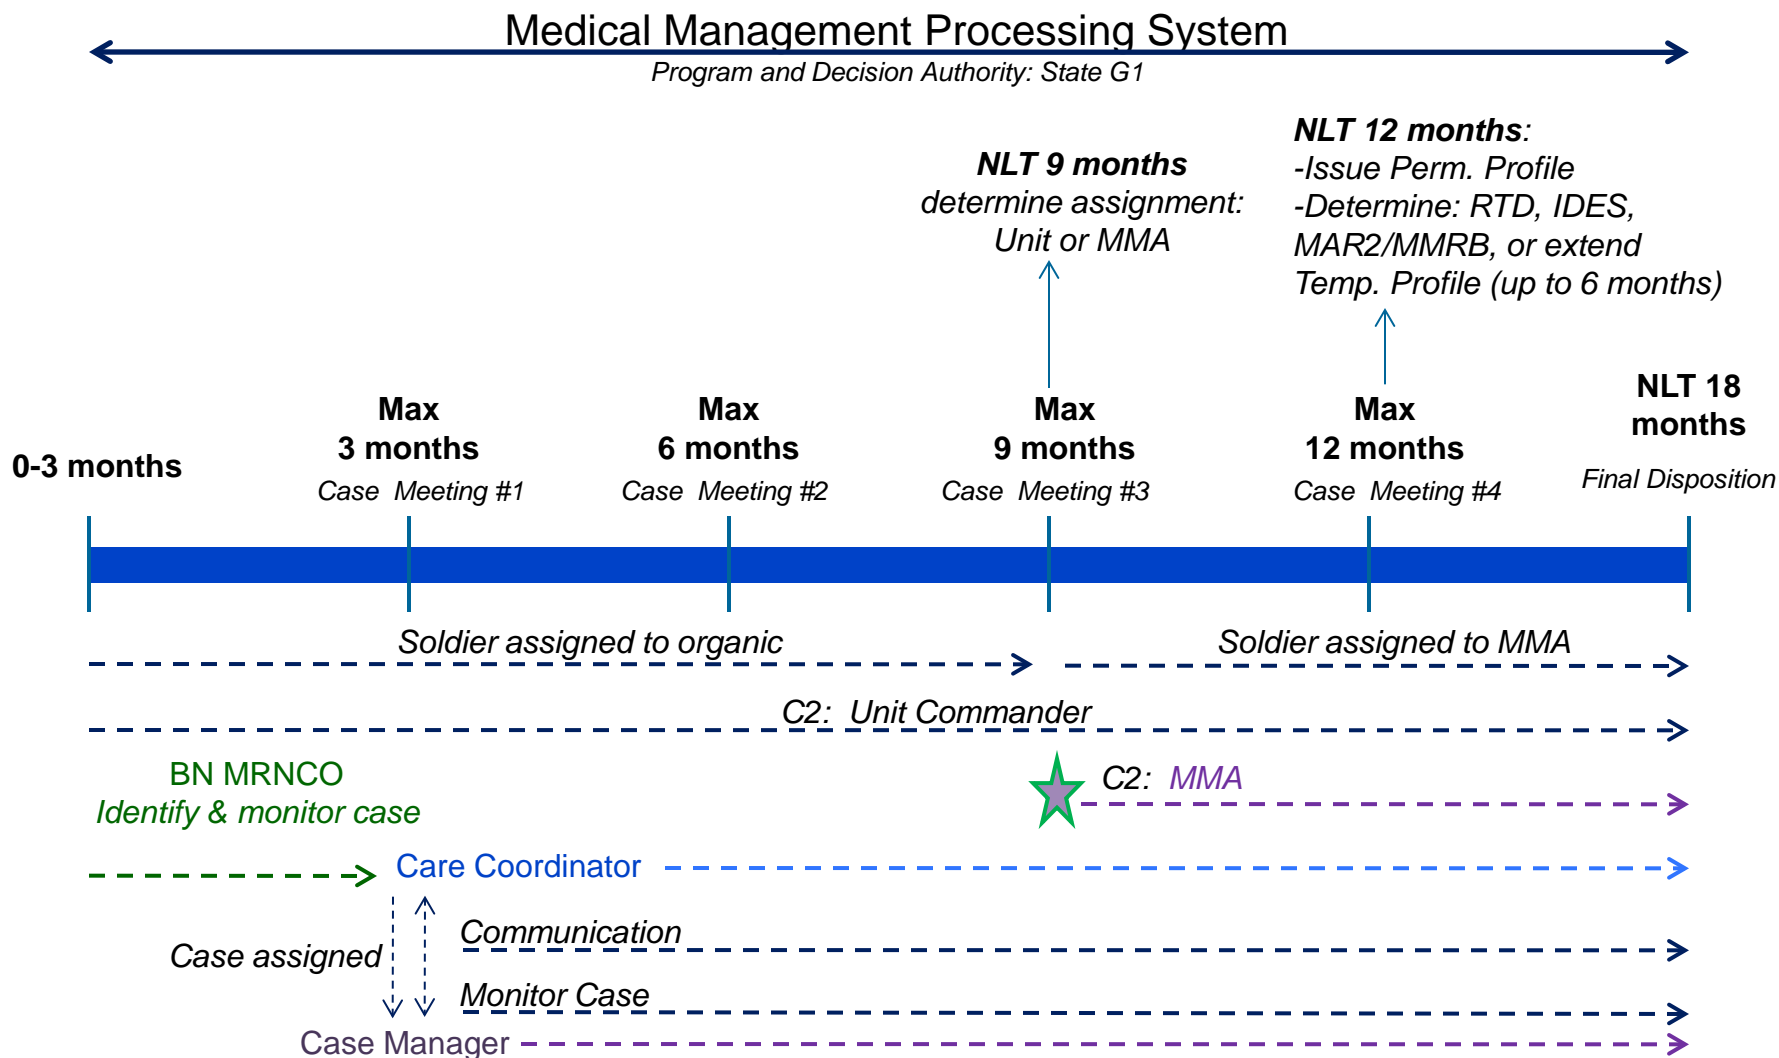

**Assure:** 1) temp profile updated  
**2) eval for AD orders for medical care**

NLT 12 MO

**Not reached MRDP ?**  
May get ONE TIME temp prof extension up to 6 MO

# Summary - Medical Management Processing System Workflow

# OTHER OPTIONS FOR CARE

## In Line of Duty:

- **LOD** – initial evaluation to obtain a diagnosis (coordinated through Health Service Support sections under Military Medical Support Office (MMSO)).
- **INCAP** – to cover gaps between orders or for Soldiers receiving medical care (cannot perform civilian job).
- **PDHRA** funds for seven medical appointments for issues identified post deployment

## NOT in Line of Duty:

- **TRICARE Reserve Select** – SM purchased health insurance to obtain care for medical issue that ARE NOT ILD. (Prem = \$53.16/mo. MAX out of pocket in 1yr = \$1000.00 for any injury or illness incurred).

# OPTIONS FOR ACTIVE DUTY CARE

## 1) Reserve Component Managed Care (RCMC)

- **RCMC-T** for training (CONUS AT or IADT illness/injury)
- **RCMC-M** for mobilized (OCONUS/T10 illness/injury)
- State Managed orders (still being finalized)
- Order set granted by the state for **up to 180 days** of eval/treatment to help reach MRDP or complete resolution.
- **Not for:** complex cases that require a WTU admission  
behavioral health treatment  
issues found NOT in the Line of Duty (NLD).

**2) WTU - ADME** (for AT or IADT) **or MRP2** (OCONUS injury or illness) packets can be submitted for placement into a WTU for full time care/treatment as determined by provider diagnosis and the corresponding treatment plan

# RCMC-M/T

- Assumptions: authorization for Nationwide implementation with a graduated expansion, of the RCMC – M/T program, which streamlines the processing of injured or ill Army National Guard Soldiers utilizing Title 10, USC, Section 12301(h) orders to receive medical treatment for 179 days or less.

# Reserve Component Medical Care (RCMC)

- Six month RCMC Pilot approved by ASA (M&RA) to 14 States/Territories on 4 AUG 11; six month extension approved 26 JAN 2012
- On 11 December 2012, the Secretary of the Army delegated authority for nationwide implementation to the ARNG
- ARNG Policy Memorandum 13-030, dated 9 AUG 13, was sent to all States/Territories to enter into the program upon training

# Reserve Component Medical Care (RCMC) (Cont)

- Title 10, USC, Section 12301(h) orders is the right authority to receive medical treatment; orders greatly reduce the length of time for Soldiers to receive follow on care at home station
- Resolves medical issues of low risk, low acuity, injured or ill National Guard Soldiers that have approved LOD
- Decreases use of INCAP pay

# ARNG RCMC- M/T REPORT

Number of Soldiers currently in the RCMC - M program	<b>3</b>
Number of Soldiers completed the RCMC- M program	<b>58</b>
Number of RCMC – M packets approved	<b>61</b>
Numbers of RCMC-M orders amended	<b>42</b>
Number of RCMC – M packets being processed/reviewed	<b>N/A</b>

Number of Soldiers currently in the RCMC - T program	<b>0</b>
Number of Soldiers completed the RCMC – T program	<b>49</b>
Number of RCMC – T packets approved	<b>49</b>
Numbers of RCMC-T orders amended	<b>27</b>
Number of RCMC – T packets being processed/reviewed	<b>N/A</b>

# Benefits from the Pilot Program

- Published 183 orders including amendments
- 110 Soldiers have REFRAD from the RCMC program (RCMC/ 61 Mobilization/ 49 Training)
- Average tour length is 89 days
- Approximately 96% Soldiers Returned to Full Duty
- \$2M estimated savings in INCAP Pay in FY12

# iDES Dashboard Background

- USAPDA and Chief Information Office/G-6 coordination per Task BH 1.3.1 - released 28 August 2013
- a single source tracking application for the IDES process
  - includes multi-organizational (e.g., leaders and administrators at various levels)
  - Soldier level access
- Commanders' dashboard shows status of their HQs and their subordinate units' performance
  - can drill down to Soldier-level detail
- Soldiers' dashboard shows them where they are in the process
  - estimates when they will finish based on IDES average process performance

# RC iDES Challenges Identified

## ***Sustain Gains and Ensure Accountability***

Original Problem	Solution
Lack of standardization on documentation accepted by MEDCOM to initiate MEB	<ul style="list-style-type: none"><li>• MEDCOM created 17 Item Checklist</li><li>• Annex O, MEB Implementation Guidance</li><li>• IDES Guidebook</li></ul>
Lack of standardization across states of quality of profiling and packet production	<ul style="list-style-type: none"><li>• 17 Item Checklist set requirements</li><li>• Mandatory use of eProfile (Jan 2011)</li><li>• Mandatory training on basic profiling</li><li>• Advanced Profiling Training – MTC 2012</li><li>• RC PDES Course Developed – XX trained</li><li>• Developed electronic packet production module in MEDCHART to improve efficiency and accuracy and provide tracking</li></ul>
Lack of coordination between MEDCOM and states making it difficult to remedy issues and move cases forward	<ul style="list-style-type: none"><li>• Electronic Module allows real time bidirectional communication between ARNG units and MEDCOM/PDA</li><li>• Established direct communication channels between MEBTO and ARNG CSG (as liaison for MEB and PEB)</li></ul>
No ability to track case progression	<ul style="list-style-type: none"><li>• Electronic Module will provide case tracking in state thru to MEDCOM</li><li>• Entry into VTA at MTF w/in 72 hours</li><li>• SMS Dashboard</li></ul>

# MEB Prep Screen Shots

The screenshot shows the eMMPS web application. At the top left is the Army National Guard logo. The main header reads "Electronic Medical Management Processing System". To the right of the header, a yellow box highlights the text "PII concealed". Below the header is a navigation bar with links: eMMPS, LOD, PMEB, PDHRA, Reports, and Help. On the far right of the navigation bar are links for "Session Viewer" and "Logout". A "Welcome" message is displayed on the left. A dropdown menu for "My Pre-MEB" is open, showing options: "Start New Pre-MEB" and "Search". At the bottom, there are two tabs: "System Messages" and "Line of Duty". A help icon (?) is located on the right side of the main content area.
