BSN	University of Texas Health Science Center @ San Antonio, Texas	Nursing	1992

Describe your area(s) of expertise as it pertains to this educational activity: Case Management/Medical Management

Twenty one years' experience in nursing: in both the in-patient and out- patient arenas. I worked as the Supervisory Nurse Specialist for over fifteen years in the Pediatric Intensive Care and Sub-Specialty Clinics, overseeing care of critically and chronically ill pediatric and adult patients.

Case Management experience with pediatric, adult, and Active Duty Service Members returning from Iraq and Afghanistan, coordinated their care both in the local and regional areas throughout the Dept of Defense.

Currently work at the TRICARE Regional Office-South as the Nurse Consultant for Case Management, Special Needs and Wounded Warrior support. Oversee the Managed Care Contractor in the south region; serve as the liaison between the MTFs, Intermediate Service Commands, HQ Commands, our beneficiaries and the Managed Care Support Contractors.
