

Ginnean C. Quisenberry, MSN, MS, RN

Ms Quisenberry is currently the Director of the Population Health, Medical Management and Patient Centered Medical Home Division (PHMM & PCMH) with the Office of Chief Medical Officer, TRICARE Management Activity (TMA). Her experience includes clinical and leadership positions spanning both military and civilian health care sectors. Deployed during Operation Desert Shield/Desert Storm, she served as an Air Force Flight Nurse, U.S. Air Force Reserves, in both peace and wartime to support our service members and their families across the globe. Ms Quisenberry was a case manager in the military treatment facilities (MTF) at Lyster Army Community Hospital, Fort Rucker, Alabama, and DeWitt Army Community Hospital, Fort Belvoir, Virginia. She has experience with onsite management for two separate TRICARE regional support contractors in referral management and as the senior representative for a TRICARE Service Center. In addition, Ms Quisenberry has provided supervision to the beneficiary counseling assistance coordination activities at the TRICARE Regional Office North and has served as the TMA Medical Management Nurse Consultant, Office of the Chief Medical Officer. At the U.S. Department of Veterans Affairs, she served as the Director, VA Federal Recovery Coordination (FRC) Program and as Chief, Community Living Centers Cultural Transformation Special Initiative.

As the Director of the Population Health, Medical Management and Patient Centered Medical Home Division, Ms Quisenberry serves as the principal advisor to the Deputy Chief Medical Officer on key population health improvement initiatives and activities, specifically targeting initiatives designed to promote and support awareness, education, and prevention efforts to improve the health and wellness of the Military Health System population.
